MEMORANDUM FOR: Chief, Support Staff, NPIC
ATTENTION: Chief, Logistics Branch, SS/NPIC
SUBJECT: Reticles for Chip Comparator Optical Subsystem

1. The TID operation of the [REDACTED] Chip Comparator has been hampered by the present type of mensuration reticle located in the optical subsystem of this instrument. In an effort to solve this problem, [REDACTED] of P&DS was contacted and asked to obtain a price quotation for a reticle that would more suitably meet the mensuration needs of TID.

2. [REDACTED] recently notified TID that the price of the new specified reticle will be [REDACTED] each plus [REDACTED] each for installation; thus, since two reticles are required for the Chip Comparator the total cost will be [REDACTED]

3. TID is, therefore, attaching a requisition for [REDACTED] to cover the cost of retro-fitting this instrument with the new reticles and requesting that the Logistics Branch/SS take the necessary action to insure that these reticles are purchased and installed in the Chip Comparator located in the Technical Analysis Branch of TID.

[REDACTED]
Chief, Technical Intelligence Division
